

## **2007 Summer Undergraduate Internship in Astrobiology The Goddard Center for Astrobiology (GCA) Greenbelt, MD 20771**

The 2007 Summer Undergraduate Internship in Astrobiology is a 10-week program for undergraduate students interested in working with scientists whose research adds to the current body of astrobiology knowledge. During the internship, each student will participate in a specific research program, working directly with one of our Team scientists at Goddard Space Flight Center. The student will work closely with the mentor to conduct a well-defined investigation, reduce data, and produce an end-of-program presentation. The presentation will demonstrate the knowledge gained over the course of the summer, and will be given in an oral forum on August 3, 2007. As a group, SUIA Interns will meet with a different GCA Team member each week to learn more about his/her respective area of research, and to gain a broader view of Astrobiology.

- Housing is paid for by the GCA and is provided by University of Maryland Resident Life
- Dates of Attendance are May 29, 2006 – August 3, 2006
- The stipend is \$3,500 for ten weeks
- Students are provided with computers and a workspace for the duration of the program

Selection criteria for the Summer Undergraduate Internship in Astrobiology include:

- A demonstrated enthusiasm and interest in Astrobiology
- Interest in scientific research
- Letters of reference from two Faculty members - The Original Letter of Reference along with two copies should be sent under separate cover by your referrers to Corinne Eby (address is listed below)
- Overall academic quality (honors, awards, GPA, etc.)
